## Depopulation Through Forced Vaccination: The Zero Carbon Solution!

*"The world today has 6.8 billion people. That's headed up to about 9 billion. Now if we do a really great job on new vaccines, health care, reproductive health services, we lower that by perhaps 10 or 15 percent."*

Billy 'The Kid Killer' Gates

By Rachel Windeer

children. It also shatters their illusions that they're part of an organisation which is far from beneficial to those they believe they're protecting from illness.

However, their hypocritical oath should compel them to investigate such wild claims put out by pharmaceutical giants and their drug dealer sales representatives instead of taking the word of an industry well known as being utterly corrupt and ruthless in its business practices.

The Irish haemophiliac scandal, where patients were knowingly infected with HIV through contaminated blood products should be enough to convince anyone of Big Pharma's murderous intent.

This brings us to the real reasons for vaccinations. I'm not even going to prove to readers that they don't work. I'll simply urge you to look up the historical record. One simple example is the demise of measles.

*The measles death rate had declined by 98% from 1915-1958 prior to any vaccination being introduced. In 1988 and 1989, 69% and 89% for measles cases in American school-aged children had been vaccinated! In 1995 56% of ALL measles cases in America were vaccinated.*

These figures come from medical journals.

Those 3 simple examples PROVE that unvaccinated children are less likely to contract measles, and that the vaccine

# Philanthropy?

## Beware Billionaires Bearing Gifts!

**I**nternational media carried reports in 2010 of the Bill Gates-Warren Buffett philanthropic scheme called 'The Giving Pledge'. On 4 August the Giving Pledge revealed the names of 40 individuals and families who pledged to give away at least half of their fortunes during their lifetimes or at death. Buffett and Gates have thrown down the gauntlet to 70 to 80 of the Forbes 400. They plan to approach the remainder and to take this challenge beyond the US. They held a dinner in Beijing in October 2010 to persuade Chinese billionaires to participate in this venture.

News of the initial gathering of this group (curiously called 'The First Supper') appeared in a report by New York publisher, Niall O'Dowd, on 18 May 2009. Participants included the Davids Rockefeller Sr and Jr, George Soros, Ted Turner, Michael Bloomberg, Chuck Feeney and Oprah Winfrey. A media blackout ensured that two subsequent dinners were unreported and shy billionaires were able to speak openly about their fortunes and ideas for philanthropy. Fortune magazine published a Gates-Buffett informed article on 16 June 2010.

The Giving Pledge promises a massive increase in the money going to philanthropy. Forbes magazine estimated the 2009 net worth of the Forbes 400 at \$1.2 trillion. Fifty percent of the net worth of those 400 would be \$600 billion. That is the minimum amount Buffett and Gates are targeting.

Philanthropists who made the pledge posted a letter saying why they did it. The common denominator was a belief that the lives of the very rich can be empty if their wealth does nothing to advance the greater good.

Warren Buffett makes it clear that although the amounts being pledged are large, we are not talking about the widow's mite. In pledging to divest himself of 99% of his own fortune, Buffett says that he and his family will give up nothing they need or want. He says that his pledge will "leave my lifestyle untouched and that of my children as well."

The Giving Pledge has not been universally welcomed. US taxpayers have been compelled to commit much more than \$600 billion to bailouts and stimulus plans to protect an economy which has caused them much hardship and which have not worked, but which have profited the billionaires. Many comments posted on Fortune's website are critical and angry. Some suggest that the billionaires were giving, fearing Obama would take wealth from them. One poster said that the billionaires' lifetimes of successful greed could not be offset by controlling who and what cause would get assistance. Suggestions were made that the philanthropic billionaires should act independently so that there would be diversity in the causes that would benefit.

There is considerable merit in this last suggestion. One very

particular obsession of Messrs Gates, Buffett and Turner is population control. The Sunday Times reported on 24 May 2010 that the 'First Supper' was a secret meeting to consider how the billionaires' wealth could be used to "slow the growth of the world's population and speed up improvements in health and education." The paper reported that the philanthropists discussed joining forces to overcome political and religious obstacles to change. Taking their cue from Gates, the first supper decided to focus on overpopulation, and "a consensus emerged that they would back a strategy in which population growth would be tackled as a potentially disastrous environmental, social and industrial threat."

Bill and Melinda Gates have given millions of dollars to abortion providers like International Planned Parenthood (of which Gates has said his father is a former head). Bill Gates is on record as supporting population reduction programmes. The Gates Institute for Population and Reproductive Health provides abortion fellowships at Johns Hopkins University. In an extraordinary statement at the TED conference in February 2010, Gates suggests that vaccines have a role in population reduction. He is a huge supporter of vaccination programmes.

The Population and Family Health Sciences Department at Bloomberg School of Public Health in Baltimore MD also provides abortion fellowships.

Ted Turner is on the record calling for a worldwide one child policy similar to the one in China that practises forced abortion and coercive sterilization. Turner has given over \$1 billion for UN programmes.

Warren Buffett has never spoken publicly about his views on abortion. The Wall Street Journal reported that in the 1990s, the Buffett Foundation helped to finance the research and development of the pills that induce abortion. His foundation also helped finance a lawsuit to overturn the ban on partial-birth abortion in Nebraska. The New York Times revealed in August 2010 that the Kenneth J. Ryan Residency Training Programme, which gives two or three years of seed money for abortion training for OB-GYN residents at medical schools on 58 campuses in the US and Canada, and the Family Planning Fellowship, are both entirely funded by Buffett's foundation. In 2006 Buffett gave the foundation about \$3 billion. Tax returns indicate that total giving by the foundation increased from \$202 million in 2007 to \$347 million in 2008. In 2008 the foundation gave Planned Parenthood and its US affiliates about \$45 million. Planned Parenthood International got approximately \$8 million. The foundation paid out around \$50 million to universities with either the Ryan or the Family Planning Fellowship. Tax records show that most of the spending goes on abortion and contraception matters. Buffett also gave in excess of \$30 billion's worth of stock to the Bill and Melinda Gates Foundation in 2006.

The Financial Times has described Bill Gates' stated vision of the function of the billionaires as one of decision-making in a new constitutional order. Does wealth give the unelected Gates and his associates the right to decide who may live or die and the size or complexion of any population?

Beware billionaires bearing gifts. They distort democracy.

Here are refs so you can see above is accurate.

was useless!  
Look that up for yourself! All other vaccine claims that they've cured or eliminated disease follow a similar pattern. Better hygiene, clean water and good healthy food was the cause of the decline and any doctor worth his smelling salts should know that. If they don't then they are misinformed on a grand scale. Therein lies the problem. Why have doctors been 'indoctrinated' to believe that vaccines are the sacred cow of medicine when the historical record clearly shows that they are virtually useless?

Hold onto your sanity because I have some bad news for you.

The real reason for vaccinations, apart from the massive profits to the manufacturers, is to ensure that you get sick throughout your life, again not only to enrich these same corporations that made you sick, but to ensure that many, if not all of

you die before you ever receive your pension and when you are no longer any use to society. That's why they want you retiring later in life and are forcing you through economic terrorism to work longer regardless of your age or health. They want to work you to death.

You will be classed as a burden to society, a financial cost which society has to bear and therefore you will be stigmatised as a 'useless eater'; a consumer of resources needed for the rest of society. When Big Pharma can no longer profit from the illness they gave you, you will be left to die.

This is the depopulation agenda promoted under the United Nations Division of Population under the Department Economic and Social Affairs.

We only need look at Africa, the nation which the United Nations has said themselves, could feed the world. Why then are millions in Africa starving to death on that

continent? It's meant to be that way folks!

All of us at one time or another have been led to believe in the efficacy of vaccines. I was one of them and had my child vaccinated nearly 30 years ago. I wouldn't even dream of it now!

I think it's safe to say that we're all aware of the real pandemic, as opposed to the fake pandemics of the past. It's called 'CANCER'. Prior to mass vaccination, cancers were extremely rare, as in almost non-existent. Today in the western, so called developed world, we face a crisis of cancer to the extent that, between one in five to one in two will suffer, many dying, from one form of cancer or another.

What's happened to cause this pandemic?

We only have to look back at the Jonas Salk polio vaccine that went around the world in the full knowledge that it contained the SV40

virus which had no other purpose than causing cancer yet it was pushed as a vaccine for polio when, as with measles, polio was well in decline prior to any vaccine due to the same factors.

Enter stage right at the TED 2010 conference, Mr. Bill Gates, head of Microsoft, the biggest computer firm on the planet. What has Bill gates to do with vaccines you're wondering?

See the quote on the front page. Those are his EXACT words

Are you beginning to get the picture?

The globalist elite care nothing for humanity; ordinary men, women and children must be eliminated in their delusional minds to ensure that their superior types go into the future with the best of breeding being the only criteria worthy of saving. You and I are no longer required and that is why we are seeing the loss of our economy, our wealth, our health, our happiness and ultimately, OUR
